Introduction 15
PART 1: THE SCIENCE AND THEORY 29
1 Key Concepts 30
2 Motivation, Priming, and Health-Related Contexts 46
3 Adaptive Health Motivations, Behavior, and Preferences 52
4 A Sink Full of Water With Nine Drains 64
5 Patterns of Health-Related Behavior 69
6 Emergence of The Health Patterns: Theoretical Model 80
7 The Health Pattern Attractors 105
8 The Health Patterns in Life 123
9 Ranking the Health Patterns by Health 142
10 Accuracy and Reliability of Health Pattern Identification 150
11 Health Pattern Conformity, Linear and Nonlinear Effects 168
12 Why The Health Patterns Are Invisible 177
PART 2: INTERACTIONS WITH SOCIAL CHARACTERISTICS 184
13 The Health Patterns and Demographics 185
14 Health Pattern Interactions with Aging 200
15 The Health Patterns, Socioeconomics, and Social Success 214
16 The Health Patterns and Lifestage 230
17 The Health Patterns, Race and Ethnicity 243
18 Summary of Health Patterns Societal Characteristics 247
PART 3: HEALTH PATTERN EFFECTS 252
19 Self-Reported Health Status 253

20 Chronic Conditions and Disease 274
21 Mental Health 303
22 Smoking 312
23 Sedentary Lifestyle and Poor Diet 320
24 Longevity and Active Life Expectancy 327
25 Effects of Increasing Health Pattern Conformity 343
26 Health Promotion Activities 355
27 Diversity of Medical Specialty Demand 368
28 Diversity of Medical Testing Demand 376
29 Medical Care Demand 381
30 Medical Expenditures 388
31 Alternative Medicine 410
32 Medication Nonadherence 414
33 Social Determinants of Health 421
PART 4: HEALTH BEHAVIOR CHANGE 434
34 Health Mind Set 435
35 Perceived Health Self-Efficacy 455
36 Health Self-Determination 469
37 Health Behavior Stages of Change 485
38 Values in Action (VIA) 494
39 Increasing US Physical Activity Levels 502
40 Multiple Health Behavior Change 521
41 Health Pattern Centered Engagement 535
42 Changing Your Health Pattern 566
43 Final Words 583
Index 586
